

## BARDAHL ADDITIVES WITH THE WORLD FAMOUS "POLAR ATTRACTION FORMULA"

For gasoline engines using mineral or synthetic, mono or multigrade oil.

### FOR NEWER ENGINES

#### Used as directed, Bardahl B-1 Oil Supplement with Polar Attraction Formula:

- Provides unequalled benefits of World Famous Polar Attraction Formula; protecting moving engine parts with a unique friction reducing molecular protective "film"
- Prevents formation of sludge, gums and varnish on valves, cams, and other critical engine parts
- Enhances engine power
- Maintains new engine performance
- Increases fuel economy
- Reduces engine wear
- Extends engine life and increases performance
- Saves money

<b>Product No.</b>	1016
<b>Package Size</b>	15 ounces
<b>Package Style</b>	Metal can
<b>Treatment</b>	Add one part Bardahl B-1 Oil Supplement to four parts of oil with each oil change (20% B-1).
<b>Units per case</b>	24

### FOR OLDER OIL BURNING GASOLINE ENGINES

#### Used as directed, Bardahl B-2 Oil Treatment with the Polar Attraction Formula:

- Provides unequalled benefits of World Famous Polar Attraction Formula; protecting moving engine parts with a unique friction reducing molecular protective "film"
- Reduces smoking and oil burning
- Increases oil pressure
- Restores lost power and compression
- Controls engine wear and deposit formation
- Reduces engine "clatter" noise
- Maintains oil viscosity under heavy loads
- Saves money

<b>Product No.</b>	2115
<b>Package Size</b>	15 ounces
<b>Package Style</b>	Metal can
<b>Treatment</b>	Add one can of Bardahl B-2 Oil Treatment with each oil change, and as necessary between oil changes. Add between 10-20% of B-2 to your crankcase.
<b>Units per case</b>	24
