

INJECTION CLEANER DIESEL

APPLICATION:

Product for cleaning the injection system VL, PL, engines of TP and agricultural.

PROPERTIES:

BARDAHL Diesel Injector Cleaner presents:

- ✓ A very strong wetting power
- ✓ An important detergent capacity
- ✓ A lubricant characteristic

INSTRUCTIONS FOR USE:

The Diesel Injector Cleaner works on a warm motor:

- ✓ Without dismantling: Introduce 1 litre of the product in the almost empty tank and rotate the motor with a product like fuel.
- ✓ With dismantling for a better efficiency: disconnect the pipes of the suction and return of fuel at the pump, introduce them into the can of the product and rotate the motor.
