

BARD AHL KXT Racing

BARD AHL KXT Racing is a technologically advanced motor-oil with excellent performances, especially developed for racing 2-stroke motorcycles.

Its revolutionary formulation starts a new generation of synthetic oils.

Contains the **BARD AHL POLAR PLUS** formula, that - together with special synthetic esters - gives this oil a better adhesiveness to metal surfaces. This assures the best anti-seizure safety even under the most severe working conditions of the engine and reduces friction among the motor parts, thus increasing its power.

BARD AHL KXT Racing is formulated with particular additives at low ash content, which ensure maximum protection and a better engine cleanliness.

BARD AHL KXT Racing is 100% synthetic and thanks to its concentrated formula can be employed at a low dosage.

VISCOSITY GRADE

SAE 60

CHEMICAL-PHYSICAL CHARACTERISTIC

Viscosity a 40°C	208,4 cSt
Viscosity a 100°C	22,5 cSt
Density a 15°C	0,905 kg/l
Flash Point	205°C
Pour Point	-21°C
Ashes	0,12%

The values shown in this table are just as an indication, variable within certain tolerances.
