

# Clean mousse

## PRESENTATION:

The CLEAN FOAM is formulated from concentrated cleansing surfactants, alkali metal salts, sequestrant, and antistatic agent and glycolated fluid.

### The CLEAN FOAM:

Cleans all types of sensitive materials encountered in industrial environments such as plastics (even porous), Plexiglass, anodized aluminum, steel, chrome, enamel, stainless steel ...

Cleans all office equipment: Cases and computer screens, touch screens.

Cleans vertical surfaces (Foam does not drip).

Cleans fabrics, coating operator's seat, seat covers, industrial gear (truck, construction machinery, snow groomer, etc.)

Cleans the outer parts of the vehicle : Wheels, Tires, calenders, beam ...

The CLEAN FOAM is static, it prevents the deposition of dust.

The CLEAN FOAM does not attack varnish, paint, seals ...

The CLEAN FOAM leaves no trace.

The CLEAN FOAM can be used on vertical surfaces.

The CLEAN FOAM is easy to use as it is an active foam spray.

## INSTRUCTIONS FOR USE:

- Shake the aerosol
- Spray at 20cm from the surface
- Dry and polish with a soft cloth
