

## Technos XFS AV504

### Product Sheet

**Technos XFS AV504** is a Premium Technology mid SAPS lubricant, for high-efficiency, high-performance engines with low emissions. Dedicated to the latest generation of engines that require high performance SAE 0W-30 lubricants of the VW 504.00 / 507.00, ACEA C3 and PORSCHE C30 level.

Bardahl **XFS technology** - eXtra Fluid Shield - gives the lubricant an additional reserve of performance in terms of reduction of the friction coefficient, protection against wear and deposit control, while ensuring the prolonged efficiency of the exhaust after-treatment systems and the increase of the fuel economy.

**XFS technology** Low Ash supplementary additive, developed specifically for the latest generation engines, offers maximum compatibility with exhaust after-treatment systems. It improves oxidation resistance, inhibits the formation of deposits, contains anti-wear, anti-scuffing and anti-friction agents.

XFS, eXtra Fluid Shield, intervenes as one extra shield, to protect all lubricated components and to maintain engine performance over time.

**Technos XFS AV504** is suitable to be used in all those applications for which the manufacturer prescribes SAE 0W-30 lubricants of the BMW LL-04 and MB 229.51 level.

### PROPERTIES

- Maximises engine performance.
- Greater longevity and cleanliness of all engine parts.
- Safeguard the functionality of particle filters and catalytic converters.
- Easy starting and immediate lubrication at low temperature.
- Maximum extension of oil change intervals.
- 100% synthetic formula.
