Full Metal

REF. 2814
12X125ML
3266720028145

PROPERTIES

BARDAHL Full Metal Moto is a high-performance engine treatment that restores power and provides long-lasting protection for your engine:

- Restores piston-to-wall sealing for optimal compression,
- Raises and balances compression between cylinders,
- Reduces excessive oil and fuel consumption,
- Improves smoothness, responsiveness, and acceleration,
- Extends engine life and reduces wear at startup,
- Immediate effectiveness, starting from the first kilometers,
- Suitable for 4-stroke engines with wet clutches,
- Extreme protection thanks to the exclusive BARDAHL Fullerene C60® concentrate.

INSTRUCTIONS FOR USE

Hot engine, after the oil change, add the bottle into the engine oil.

Compatible with all types of 4-stroke engines, both old and new generations, equipped or not with a catalytic converter. Compatible with all types of oil. Compatible with wet clutches.

125ml treats up to 5L of oil. Ideal dosage: 2.5%.

Recommendation: Change the oil filter during the oil change.
